Subject: Connections submission for the annual report

Here's a short paragraph for us for the annual report:

The Connections Committee has been pleased to support multiple events in the last year that brought us together outside of worship in meaningful ways through which we enjoyed multigenerational connections. We thank everyone for their support, volunteerism, and attendance. We look forward to continuing this in 2024, and we look toward the opportunity to focus more on welcoming guests and reviving affinity groups. Co-Chairs Susan Jensen and Karen Cross ask members to consider how they can connect with others in our church and the wider community. We welcome your suggestions for connections-centered events and connections-focused ministries that will help our church community continue to love, serve, and share boldly.
